Dear Sirs:

I'd like to extend my appreciation for your firm's outstanding performance in the upgrade to the Naval Satellite Operations Center's (NAVSOC's) ten-meter antenna at Detachment CHARLIE, Finegayan, Guam. Most notably, your firm expertly provided replacement of the antenna's servo amplifiers, azimuth and elevation motors, and the antenna control unit; all having been completed ahead of schedule and without significant hardware complications.

Additionally, following contract award, the Preliminary Design Review, Critical Design Review, and the staging demonstration at the Telemetry & Communications Systems (TCS) facility were all conducted on schedule, as was the actual installation of the equipment.

The TCS personnel involved in our project were both very knowledgeable and industrious in implementing the Detachment CHARLIE upgrade.

NAVSOC looks forward to working with TCS again on future projects.

Thank you for a Job Well Done!

A handwritten signature in black ink, appearing to read "D. L. BUCKEY", is written over a faint, illegible typed name.
